Технические характеристики на азотно-плазменные системы NeoGenSPA КОМПАНИИ **Energist NeoGen**

NeoGen NeoGenSPA

NeoGenSPA effectively treats skin types I – IV and is ideal for treating darker skin types due to its limited energy output.

FULL SPECIFICATION

- Low energy range for less aggressive treatments
- Zero to minimal discomfort or downtime
- No anesthetic needed
- High safety profile
- Pre-set interface makes it quick and easy to get started

INDICATIONS

Facial Rhytides

Non-facial Rhytides

Pigmented Lesions

Skin Rejuvenation

Pore Size Reduction

Stretch Marks

Photodamage

FULL SPECIFICATION

Energy Range:	0.5 J – 0.8 J
Pulse Rate:	Single pulse
Repetition Rate:	1.0-1.5Hz
Nozzles:	25mm
Power:	100-120/230Vrms – 50/60Hz – 650Va
Dimensions:	470 x 430 x 1060mm
Gas Requirement:	Medical Grade Nitrogen
System Weight:	18kg/40lb
Trolley Weight:	25kg/55lb (excludes gas tank)
Ambient Environment:	0 to 40 Celsius
Relative Humidity:	30 to 75%
Atmospheric Pressure:	70.0 to 106.0kpa

SKIN RESURFACING

SKIN TIGHTENING

SKIN REGENERATION

FINE LINE & WRINKLES

ACNE SCARRING

PIGMENTATION

SUN DAMAGE

NeoGenSPA

NITROGEN PLASMA TECHNOLOGY

THE ADVANTAGES OF THE SPA

One device which caters for skin rejuvenation and skin tightening by concentrating on **fine lines and wrinkles, sun damage, stretch marks, acne scarring-pre-cancerous lesions and much more.**

TREATS A WIDE RANGE OF SKIN TYPES

Unlike many other technologies on the market, **NeoGen Plasma** has the ability to treat a **wide range of skin types.** Using the Fitzpatrick scale we are able to identify the different skin types and the energy suited to each to ensure successful treatment, safely.

WHOLE BODY TREATMENT

Quick and effective treatments with **minimal downtime**, for a **quick recovery** on skin all over the body.

THE USERS

The **NeoGenSPA** is the perfect product for salons and aesthetic treatment facilities specialising in and offering a **non-invasive, non-ablative** treatment solution that provides **natural and long-lasting results.**

CHANGE THE FACE OF YOUR BUSINESS

NeoGenSPA is the perfect choice to treat ageing and troubling skin. This unique technology has a proven record for treating anti-ageing, cosmetic and dermatological conditions all over the body. The treatment has a proven record of generating new skin with results and improvements lasting for up to one year after the initial treatment.

For clients who are not quite ready for more invasive surgical techniques, **NeoGenSPA** offers a quick and extremely effective alternative for patients seeking minimal downtime, highly tolerable procedures while obtaining natural and long-lasting results.

NeoGen works on and below the surface of the skin to modify the skin's entire architecture, generating new collagen and elastin fibres. This provides clinical improvements in skin tone, texture and laxity simultaneously with results appearing immediately and progressively improving for a considerable amount of time afterwards.

YOUR RETURN ON INVESTMENT

The **NeoGenSPA** is a highly profitable device. This is attributed to several factors:

- The running costs of the device and its services is low and will continue to be so, especially when serviced regularly.
- The consumables that are needed for the treatments carried out by the SPA consist of the nozzle heads and gas, equating to between just 5 & 10% of the treatment revenue gained from the treatments.
- The turnaround on the treatments is also low, for example a full-face treatment only takes 20 to 30 mins from start to finish (this does not include consultation and prep time). This enables a high number of treatments to be carried out in a day, therefore maximising the number of full package treatments that can be performed.
- The system has a range of energy settings, however, all have fantastic and proven results. This allows the user to perform extremely effective treatments on the lowest settings using less energy each time, if required.

DISCOVERING THE REAL YOU.... NATURALLY

Eyelid Lift

Acne

Pore Size Reduction

Scar Revision

Stretch Marks

Sun Damage

Facial Wrinkles

Skin Rejuvenation

Skin Tightening

Benign Pigmented Lesions

Non-Facial Wrinkles

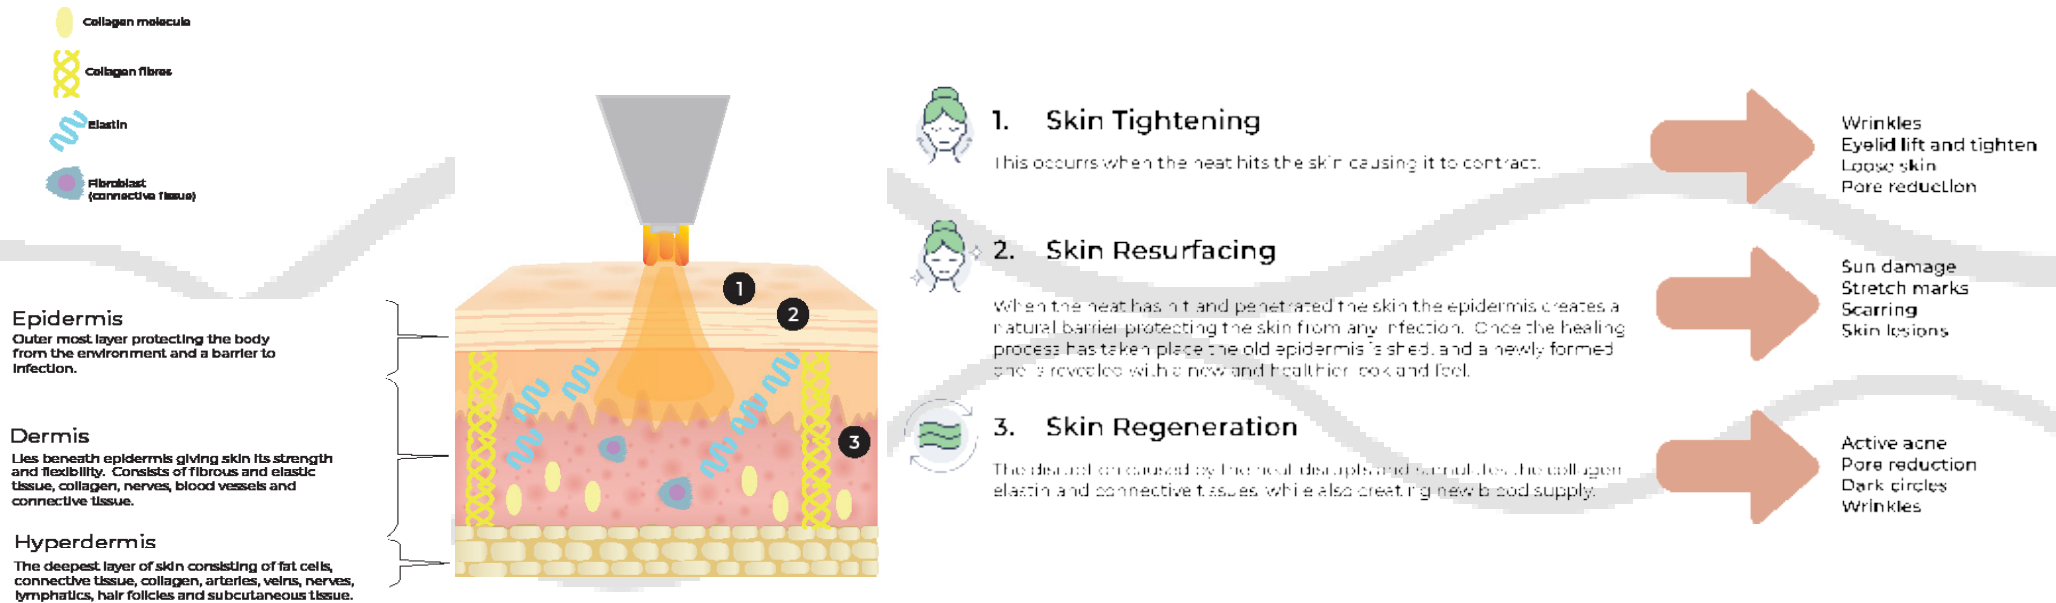

THE SCIENCE BIT

NeoGen technology uses the process of converting nitrogen gas into pure nitrogen plasma energy. **Plasma** is a source of thermal energy which permeates the skin in a uniform delivery which in turn has a profound effect on and beneath the skin achieving **outstanding results**.

The heat directed onto the skin's surface causes a thermal disruption to the structure of the skin deeply penetrating until the dermis is reached. The dermis is the thick protective layer of skin made up of fibrous and elastic tissue which provides the strength, flexibility and protection to the whole skin. The **NeoGen** process finds a way to do this by breaking it down in order for it to regenerate, however in order for this to be 100% effective the skin must be well hydrated. The hydration of the skin along with the energy setting used dictates how deep the treatment can penetrate and therefore achieve the desired results. The energy is conducted via the water in the skin and so the more there is the easier it is for the energy to be as effective as possible.

NeoGenSPA has energy levels from 0.5 to 0.8 joules, which when combined with the number of passes (number of times the treatment is delivered in one place), determines the depth of the treatment and therefore the levels of tightening, resurfacing and regeneration the client receives. The best thing about **NeoGen** Plasma Technology is that it uses all the natural elements to improve the look and health of the skin.
